What is this?

This is a managed investment scheme. Your money will be pooled with other investors' money and invested in various investments. Simplicity NZ Limited (**Simplicity**) will invest your money and charge you a fee for its services. The returns you receive are dependent on the investment decisions of Simplicity, and of its investment managers, and the performance of the investments. The value of those investments may go up or down. The types of investments and the fees you will be charged are described in this document.

What will your money be invested in?

The Simplicity KiwiSaver Scheme (**Scheme**) offers 3 different investment options (**Funds**) for you to invest into, summarised below. More information about the investment target and strategy for each investment option is provided at Section 3 ("Description of your investment options").

* The risk indicator is not a guarantee of the Funds’ future performance. The Funds do not have a 5-year history. Accordingly, for the Conservative Fund, the Balanced Fund and the Growth Fund the risk indicators were prepared using market index returns to 31 August 2016 and actual returns to 30 September 2020. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the fund.

This Product Disclosure Statement (**PDS**) is for membership of the Scheme. You are investing in a registered KiwiSaver scheme under the Financial Markets Conduct Act 2013 (**FMCA**).

KiwiSaver is for long-term savings designed to help give you more money in retirement. The key benefits of investing in the Scheme are:

- a choice of Funds to help you meet your retirement savings goals, all of which invest in a diverse range of investments globally. There are over 3,000 investments in each Fund, in more than 20 countries.
- our not for profit, on-line business model allows Simplicity to aim for the lowest fees in New Zealand for investors, which minimises the negative impact fees have on returns.
- experienced investment management. We manage the listed New Zealand assets and are responsible for a low cost, low turnover approach.
- we outsource our global investments to Vanguard Asset Management Limited (**Vanguard**). Vanguard shares a similar low-cost philosophy and is currently the second largest fund manager in the world, with over NZ\$9 trillion under management as at 30 September 2020.
- each Fund has a limited allocation to loans managed by us, secured by first mortgages over residential property. The loans are to members purchasing their first homes and are subject to strict lending criteria. See the “Other Material Information” document at simplicity.kiwi for details of the lending criteria. The maximum allocations are Conservative Fund 8%, Balanced Fund 5% and Growth Fund 3%. These are included within the New Zealand fixed interest asset allocation.
- our Growth Fund has a maximum investment of 5% in unlisted securities issued by New Zealand businesses with high growth potential. Management of this investment is split between us and Icehouse Ventures Limited; the investment arm of The Icehouse Limited that was formed in 2001 to assist small to medium sized enterprises grow their businesses.

Structure of the scheme

The Funds are trusts and are governed by a trust deed (**Trust Deed**) between us and Public Trust, the supervisor of the Scheme (**Supervisor**). The Scheme's assets are held by Public Trust, the Supervisor and independent custodian of the Scheme, on behalf of investors.

The Scheme is a managed investment scheme. This means that your money is pooled with other members' money and invested by Public Trust on our instructions. A managed investment scheme can give you access to investments that you may not be able to access as an individual.

Your contributions and any contributions from your employer are allocated to units in an account in your name. Your account is invested in whichever Fund you select and its value varies in accordance with the returns achieved by the Fund chosen. The value of the units you hold represents your share of the Fund's assets.

The Funds are run independently of one another. This means that the assets of a Fund are not available to be applied to meet the liabilities of any other Fund. For example, a loss in the Growth Fund will not affect members invested in the Balanced Fund.

The Scheme is a defined contribution scheme. This means that the benefits you receive depend on the contributions paid on your behalf, the returns on the Fund you chose, and any money deducted or withdrawn. The value of your investment will change during the term of your membership. There is no Crown guarantee in respect of any investment in a KiwiSaver scheme.

Joining KiwiSaver

New Zealand citizens and those eligible to be in New Zealand indefinitely and who are or normally are living in New Zealand, can become a member of KiwiSaver. You can also join KiwiSaver if you are a state services employee serving outside New Zealand, in a jurisdiction where offering KiwiSaver membership is permitted.

Joining the Scheme

You can join by filling out our online application form at simplicity.kiwi. This is if you are a new KiwiSaver investor or if you are transferring from another KiwiSaver scheme.

If your employer has chosen the Scheme as their preferred KiwiSaver scheme and you are not already a KiwiSaver member, you will automatically be enrolled into the Scheme when you start employment. If you have been automatically enrolled, you can choose to opt out between 14 to 56 days from the day you started your new job.

You will be issued units in the Fund you choose (see below) at the current unit price. This is determined by dividing the Net Asset Value of the Fund by the number of units on issue, and will vary from day to day. You can find the current unit price on the member website that you can access once you join the Scheme.

Making investments

If you're employed, KiwiSaver contributions are deducted from your pre-tax (gross) salary or wages at a rate of 3%, 4%, 6%, 8% or 10%. If you do not select a rate your default rate will be 3%. You can also make voluntary contributions at any time. If you are contributing to KiwiSaver, you may also be entitled to an employer contribution of 3% of your pre-tax salary or wages. Tax is deducted from employer contributions.

Any member can also make additional voluntary contributions by regular or lump sum payments.

Information on how to make additional contributions is available at simplicity.kiwi.

If you're over 18 and below the superannuation age (currently 65), the Government will (if you're eligible) contribute 50 cents for every dollar you contribute, up to a maximum Government contribution of \$521.43 each year (1 July to 30 June). This is paid directly to your KiwiSaver account around late July each year.

You can change your contribution rate or have a 'savings suspension', subject to some restrictions.

You may also be able to transfer savings from an existing New Zealand or overseas superannuation scheme. To transfer from an Australian complying superannuation fund, you will need to have permanently emigrated to New Zealand.

The amounts referred to in this section may change in the future.

Withdrawing your investments

You are generally not eligible to withdraw your investment in the Scheme until you reach New Zealand superannuation qualification age (currently 65).

Any amount transferred from an Australian complying superannuation fund (excluding investment returns on that amount) can be withdrawn when you reach age 60, if you have 'retired' in terms of the relevant Australian legislation.

Other Withdrawals

You may also be able to make a withdrawal in other limited circumstances, such as:

First home: You may be eligible to withdraw your investment (leaving a minimum of \$1,000 in your account) to put towards buying your first home once three years have passed since you joined KiwiSaver.

Significant financial hardship: If you are suffering significant financial hardship (as defined by the Supervisor), you may be able to withdraw some of your investment. Significant financial hardship claims are carefully considered by our Supervisor who has sole discretion as to whether or not to approve your application, and will seek evidence from you to support your application.

Serious illness: You may be able to withdraw your KiwiSaver investment early if you are experiencing terminal illness or permanent disability affecting your ability to work, as determined by the Supervisor.

Life shortening congenital conditions: You may be able to make an early withdrawal if you were born with a condition that is expected to reduce your life expectancy below 65. The supervisor will determine whether you're eligible for a life-shortening congenital conditions withdrawal. If you make a withdrawal, you'll no longer be eligible to receive any Government contributions and your employer can stop their contributions.

Permanent emigration (other than to Australia): You may apply to withdraw your full KiwiSaver balance or have it transferred to a foreign superannuation scheme specified in the KiwiSaver Act 2006, one year after your permanent emigration (less the amount of any accumulated Government contributions). Conditions will apply to this withdrawal.

Permanent emigration to Australia: If you emigrate to Australia you will, instead, be able to transfer the full balance of your investment to an Australian complying superannuation fund. Conditions will apply to this withdrawal.

- If you make a withdrawal to purchase a first or subsequent home you may also be able to receive a KiwiSaver HomeStart grant of up to \$10,000 from the Government. See kaingaora.govt.nz for more information, including the terms, conditions, and eligibility criteria.
- If you have transferred from a foreign superannuation scheme, there are rules in place that may allow you to withdraw an amount to cover any New Zealand tax liability and/or student loan repayment obligations that relate to the transfer.
- We may also have to release some or all of your money under a Court order.
- Provided you are eligible to do so, you can transfer to another KiwiSaver scheme at any time. You can only be a member of one KiwiSaver scheme at a time.

Once we are satisfied you are able to make a withdrawal, we will normally process your application within 1 – 2 weeks. You may make a partial or full withdrawal. We may set terms and conditions for partial withdrawals (such as limits on how often a partial withdrawal can be made, and how much is required to be withdrawn). Currently, the minimum amount for a partial withdrawal is \$100.

See our “Other Material Information” document on the Disclose register companiesoffice.govt.nz/disclose or simplicity.kiwi for more information about withdrawals. See simplicity.kiwi or contact us for the required forms. You will need to satisfy certain legal requirements (including providing evidence of entitlement to withdraw) and our processes, before you can make a withdrawal.

Under the Trust Deed, in limited circumstances we can suspend the ability to make withdrawals.

How to switch between funds

You are able to switch investments between the Funds. You can do this online via our investor portal that you have access to, once you join the Scheme.

There is no limit on the number of allowable switches. Under the Trust Deed we can limit the number of switches members may make in the future.

4. What are the risks of investing?

Understanding the risk indicator

Managed funds in New Zealand must have a standard risk indicator. The risk indicator is designed to help investors understand the uncertainties both for loss and growth that may affect their investment. You can compare funds using the risk indicator.

Risk indicator*

See Section 3 (“Description of your investment options”) for the filled-in risk indicator for each of the Scheme’s investment options.

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund’s assets goes up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [simplicity.kiwi/calculators/kiwisaver/risk-profiler/](https://www.simplicity.kiwi/calculators/kiwisaver/risk-profiler/).

Note that even the lowest category does not mean a risk-free investment, and there are other risks (described under the heading “Other Specific Risks”) that are not captured by this rating.

This risk indicator is not a guarantee of a fund’s future performance. The Funds do not have a 5-year return history. Accordingly, for the Conservative Fund, the Balanced Fund and the Growth Fund the risk indicators were prepared using market index returns to 31 August 2016 and actual returns to 30 September 2020. As a result, the risk indicator may provide a less reliable indicator of the potential future volatility of the Fund. While risk indicators are usually relatively stable, they do shift from time to time. You can see the most recent risk indicator in the latest fund update for the Funds.

4. He aha ngā tūraru o te haumi?

Te marama i te tohu tūraru

Me matua whai tohu tūraru māori ngā tahua taurima ki roto o Aotearoa. General investment risks

Some of the things that may cause the Scheme's, or a Fund's, value to move up and down, which affect the risk indicator, are market risk, liquidity risk, interest rate risk, default risk and currency risk.

Investment Risk	Description
Market risk	The value of investments may rise or fall as a result of developments in economies, financial markets, and regulatory or political conditions. The performance of individual assets, securities, and issuers can impact returns.
Liquidity risk	There is a risk that some assets of a Fund may not be able to be converted into cash, because of lack of a market in which to sell them, or if the market is disrupted. This particularly applies to a fund's exposure to first mortgages where there is no active market to sell into. It applies to the Growth Fund as it invests a limited amount of its Australasian share allocation in unlisted securities issued by New Zealand businesses with high growth potential.
Interest rate risk	The market value of fixed interest securities changes when interest rates change. The impact this has on a Fund will depend on the term of the fixed investment and the fixed interest rate relative to market rates. If the general level of interest rates rises, the value of fixed interest securities falls.
Currency risk	We have a policy of hedging overseas share investments 65% to the NZ dollar. There may be fluctuations in value, and the actual percentage may vary. There may also be additional requirements to pay for the cost of hedging if the NZ dollar falls relative to other currencies.
Default risk	Each Fund has an exposure to loans secured by first mortgages over residential properties. While the lending criteria is conservative, there is a risk that a borrower defaults and the full value of the loan is not recovered.

Ngā tūraru haumitanga tukupū

Ko ētahi o ngā āhuetanga e piki ai, e heke ai rānei te wāriu o te Kaupapa nei, o tētahi Tahua rānei, otirā, ka pā atu ki te tohu tūraru, ko te tūraru taiahumoni, ko te tūraru whakaioio, ko te tūraru pāpātanga itareti, ngā tūraru aunoa me te tūraru pūnaha moni.

Te Tūraru Haumitanga	Te Whakamahukitanga
Tūraru taiahumoni	Ka piki, ka heke pea rānei te wāriu o ngā haumitanga i runga i ngā whanaketanga o ngā mahi ōhanga, nga taiahumoni ahumoni, me ngā āhuetanga ture, tōrangapū anō hoki. Ka pāngia hoki ngā hua e te haere o ngā rawa tūhāhā, ngā rawa whakahaumarū, me ngā kaituku moni i ngā hua pūtea.
Tūraru whakaioio	Koia tētahi tūraru e kore pea e taea te huri hei ukauka nā runga i te korenga o tētahi taiahumoni mō aua rawa, nā runga rānei i te whakatōhenetanga o te taiahumoni. E tino hāngai ana tēnei ki ngā wāhanga o ngā tahua e tūwhera ana ki ngā mōkete kāinga tuatahi inarā kāore he taiahumoni hei hoko atu ai. Ka whai pānga ki te Tahua Manawanui i runga i tana haumi atu i tētahi wāhanga o ana hea Autareiria ki ngā pakihī kāore anō kia whakarārangitia, ā, he mea tuku e ngā pakihī pitomata tipu nui i Aotearoa.

We do not currently charge contribution, establishment, termination, or withdrawal fees, and we intend that, for the foreseeable future, we will not introduce any such fees. However, we could charge these or other fees in the future. Accordingly, you may be charged other fees on an individual basis for investor-specific decisions or actions. See the Disclose register at companiesoffice.govt.nz/disclose for more information.

The fees can be changed

We are entitled to alter charges (including increasing fees or introducing new fees) at any time with the prior approval of the Supervisor. There are no limits on the charges that may be set, subject to the requirement under the KiwiSaver Act 2006 to not charge unreasonable fees. Details of the current charges are set out above and in the annual financial statements of the Scheme.

Every three months, we must publish a fund update for each Fund showing the fees actually charged during the most recent financial year. Fund updates, including past updates, are available at [simplicity.kiwi](https://www.simplicity.kiwi).

6. What taxes will you pay?

The Scheme is a portfolio investment entity. The amount of tax you pay is based on your prescribed investor rate (PIR). To determine your PIR, go to ird.govt.nz/roles/portfolio-investment-entities/find-my-prescribed-investor-rate. If you are unsure of your PIR, we recommend you seek professional advice or contact Inland Revenue. It is your responsibility to tell us your PIR when you invest or if your PIR changes. If you do not tell us, a default rate may be applied. If the rate applied to your PIE income is lower than your correct PIR you will be required to pay any tax shortfall as part of the income tax year-end process. If the rate applied to your PIE income is higher than your PIR any tax over-withheld will be used to reduce any income tax liability you may have for the tax year and any remaining amount will be refunded to you by Inland Revenue.

See the “Other Material Information” document on our website [simplicity.kiwi](https://www.simplicity.kiwi) or on the Disclose register at companiesoffice.govt.nz/disclose for more information about the tax consequences of an investment in the Scheme.
